

V5 Portable Security Unit (PSU)

**RAPID OUTDOOR SECURITY
DEPLOYABLE IN UNDER 30 MINUTES**

Modular Platform For Customization

V5 Gunshot Sensor

This sensor is able to both detect and localize the source of gunfire and provide real-time location information for each gunshot event.

V5 PTZ Camera

Provide pan/tilt and zoom functions allowing you to remotely control your viewing area. Great for wide area coverage and details when zooming in.

V5 License Plate Recognition

License plate camera, with built in software to help identify and record license plates on still or moving vehicles.

**THE MOST ADVANCED SELF-POWERED
OUTDOOR SECURITY SOLUTION**

100% Self-Powered

- Perpetually powered with a combination of proprietary bullet-resistant V5 solar panels, battery and power management system

Multi-Sensor

- Modular platform for optional sensors including HD video, gunshot detection/location and chemical detection

Live 24/7 Video Streaming

- VMS (video management system) for desktops, tablets and Android/iOS phones
- Role-based access control for live video, history and HD downloadable views

Computing & Storage

- All software included
- Up to 1TB of onboard storage
- Linux-based operating system
- Analytics for multi-zone object detection, enabling real-time email and text alerts

Wireless Communications

- Outdoor Wi-Fi
- Cellular
- Radio frequency

Deployment Options

- Edge (standalone)
- Distributed (central management system)

Rapidly deploy pre-configured, self-contained security units powered with a combination of battery and solar technology to any outdoor environment or cost-prohibitive area without being tied to the electrical grid. Gain immediate insight with 24/7 live video streaming and real-time alerts sent to any smart device.

BENEFITS:

Fast Deployment

- Turnkey solution
- Effortless setup

Lower Expenses

- No trenching
- 2-year warranty included

Increase Awareness

- Prevent blind spots
- Decrease risk exposure
- Reduce crime
